EXAMINER'S AMENDMENT

Claims 1-11 and 18-20 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 12-17 and new claims 21 and 22, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 12-17, 21, and 22 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on 24 February 2005 is hereby withdrawn.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter Dardi on 13 June 2005.

The application has been amended as follows:

Cancel claims 21 and 22.

The following is an examiner's statement of reasons for allowance: The newly submitted art (IDS of 3 June 2005) does not disclose or suggest the claimed charge transport compound at least because the orientation of the hydrazone groups is different in the prior art as compared to the instant claims.

Art Unit: 1756

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
